EDUCATION

National Institute of Design, Bengaluru, India

Masters of Information Design (CGPA 8.22) - 2021-2024
Achievement: Secured **All India Rank 1** in the NID Entrance Exam for Information Design (2021) among 1000+ applicants.

Birla Institute of Technology, Mesra, India

Bachelors of Architecture (CGPA 7.65) - 2014-2019

EXPERIENCE

Kapsy AI - Remote - Freelance

User experience designer , September 2026 - November 2026

- **Asynchronous Coaching & Practice Platform | EdTech & Creator Economy:**

  Designed a dual-sided learning and coaching platform from 0 to 1 as the solo product designer, partnering with frontend and backend developers, product managers, marketing, and content creators to deliver desktop web and mobile apps across 5+ craft disciplines; architected automated course and class management tools that cut coach onboarding overhead by 50%, alongside interactive craft-specific practice labs that compressed student feedback turnaround from 7 days to <24 hours, paired with friction-free lab recording workflows that achieved a 90%+ practice submission completion rate.

Fractal Analytics - Bengaluru - Full time

User experience designer , June 2024 - August 2026

- **Philips – Medical Device Service & Root Cause Analytics | HealthTech & MedTech:**

Designed a multi-stream service dashboard for NA managers, consolidating 100+ complex data points and introducing AI-driven root cause analysis for proactive issue detection. Partnered with AI, data, and product teams to streamline KPIs, reducing decision-making time by 50%, boosting operational KPIs by 20%, and earning a 10/10 NPS.

- **Metro Brands – Trend & Demand Intelligence Platform | Retail & Fashion Tech:**

  Designed a trend and demand intelligence platform for footwear buyers and designers, automating trend research, product shortlisting, and demand planning workflows; collaborated with a cross-functional team of developers, AI engineers, and product managers to deliver an end-to-end solution that reduced new product launch cycle time by 80%, cut inventory costs by 50%, and minimized revenue loss by 50% during the pilot phase, achieving an NPS of 10/10.

- **Kenvue – Global Logistics & Custom Table Builder | Supply Chain Tech:**

  Designed a global supply chain dashboard comprising 100+ screens, 50+ user flows, and 1,000+ complex data points; conducted 10+ discovery sessions with 50+ cross-functional stakeholders to reduce cognitive load by 50% for 1,000+ international managers, thereby accelerating critical supply chain decision-making across EMEA, LATAM, and NA and achieving an NPS of 9/10.

- **Schneider Electric – Oracle BI Dashboard for HR Analytics | Energy & Enterprise HR Tech:**

  Designed an enterprise Oracle BI dashboard for workforce planning and attrition analytics, collaborating with cross-functional engineering teams and HR leadership; integrated user research with rigorous data dictionaries and UI design libraries, increasing HR operational efficiency by 30% across global teams with a 9/10 NPS.

- **Shell – Power BI Churn Prediction Dashboard | Energy & B2B SaaS:**

  Designed a Power BI dashboard to surface insights from an AI-based customer churn prediction model, synthesizing 1,000+ data points, owned UX end-to-end as a solo designer and researcher within a cross-functional team, conducting user research and partnering with data analysts to align designs with data dictionaries and design libraries, reduced

decision-making time by 80%, helped prevent 40% of at-risk customer churn, for 100+ managers across the EU, earned a 10/10 NPS

- **R&D (Fractal) – BI Frameworks & Executive Scrollytelling | Enterprise People Analytics:**

  Architected an internal BI visualization framework mapping user archetypes to optimal chart paradigms, accelerating engineering design sprint cycles by 20%; designed an interactive executive scrollytelling narrative translating 100+ complex organizational growth, billing, and utilization metrics into a single coherent narrative that increased C-suite stakeholder engagement by 50%.

Femlabs - Remote - Freelance

Designer & researcher, February 2024 - May 2024

- **Unveiling Biases in AI – Model Evaluation Dashboard | AI Infrastructure & Governance:**

  Researched data gaps at the intersection of race and gender in generative AI platforms; designed an interactive auditing dashboard translating complex mathematical fairness metrics, error distributions, and demographic parity into visual threshold inspection tools for ML researchers.

Bosch - Bengaluru - Internship

User experience designer, October 2023 - January 2024

- **Marketing Intelligence & Lead Optimization BI | Automotive & Mobility:**

  Designed an enterprise Power BI dashboard for automotive marketing operations, synthesizing 500+ data points as the solo designer and researcher within a cross-functional team; aligned interaction workflows with technical data dictionaries and design tokens, cutting decision-making latency by 40% for 100+ nationwide marketing managers.

IFB - Goa - Internship

Customer experience designer, June 2023 - September 2023

- **Service Design & Omnichannel Ecosystem Audit | Consumer Electronics & Appliances:**

  Mapped the end-to-end customer care and technician service journey across 100+ touchpoints using service blueprints; conducted field

discovery sessions to identify and resolve 100+ operational bottlenecks, facilitating prioritization workshops that streamlined dispatch workflows and improved customer issue resolution rates.

Noah - Remote - Freelance

Information designer, June 2022 - July 2022

- **Civic Data Visualisation & Editorial Storytelling | Public Policy & Civic Tech:**

  Analyzed multidimensional gender equality datasets from 100+ sources to design a comprehensive editorial data visualization series illustrating historical women's political participation in India; established an accessible, cohesive visual grammar used by think tanks, NGOs, and policy makers to inform public dialogue on legislative representation.

SKILLS & DOMAIN EXPERTISE

- **Core Domains:** Enterprise B2B SaaS, AI Infrastructure & Governance (MLOps/XAI), High-Density Data Grids, Supply Chain Planning, Predictive Analytics & Churn Modeling, HealthTech Systems, Civic Data.
- **Interaction & Information Design:** Complex Schema & Data Mapping, Cognitive Load Reduction, Information Hierarchy, Design Systems & Component Tokens, WCAG 2.1/2.2 AA Accessibility, User Research & Usability Testing.
- **Design & Visualization Tools:** Figma, FigJam, Adobe Creative Suite (Illustrator, Photoshop, After Effects), Miro.
- **Technical, Analytics & Prototyping Stack:** Microsoft Power BI, Next.js, React, Tailwind CSS, Framer Motion, D3.js, QGIS (Geospatial Mapping), Processing, Python (Data Cleaning), Claude Code, Git/GitHub.
